

Student Success Hub

Deliver equitable and holistic student support from anywhere

The path to graduation looks different for every student, and schools are meeting increased needs as they adapt to a new, learn-anywhere world. Now more than ever, providing holistic student support is key to each child's success.

Student Success Hub helps schools of all sizes deliver equitable support by connecting students with the services they need to thrive—from food and mental health to devices, tutoring, and much more. Empower your teams to support the whole student, visualize progress, intervene collaboratively, and measure key outcomes with Student Success Hub.

LET'S TAKE A CLOSER LOOK AT STUDENT SUCCESS HUB

Drive Student Success as One, Connected Team

In a recent survey of education leaders, we asked how technology can help improve student support efforts. The number one request was for solutions to create and document student success plans, followed by technology to log student support interactions, track services provided, and make this work more collaborative across teams.¹

Student Success Hub provides real-time insights, collaborative tools, and a platform for supporting students in a more personalized way, so your teams spend less time trying to connect the dots and more time connecting with students. Built on the World's #1 CRM platform, Student Success Hub brings the latest Education Cloud for K-12 innovations to your counselors and staff to deliver holistic student support at scale.

Tools to Create Your Vision of Student Success

Student Success Hub is designed to deliver timely, relevant insights into students' needs in and out of the classroom. With Student Success Hub, your entire school community can securely collaborate to drive student success.

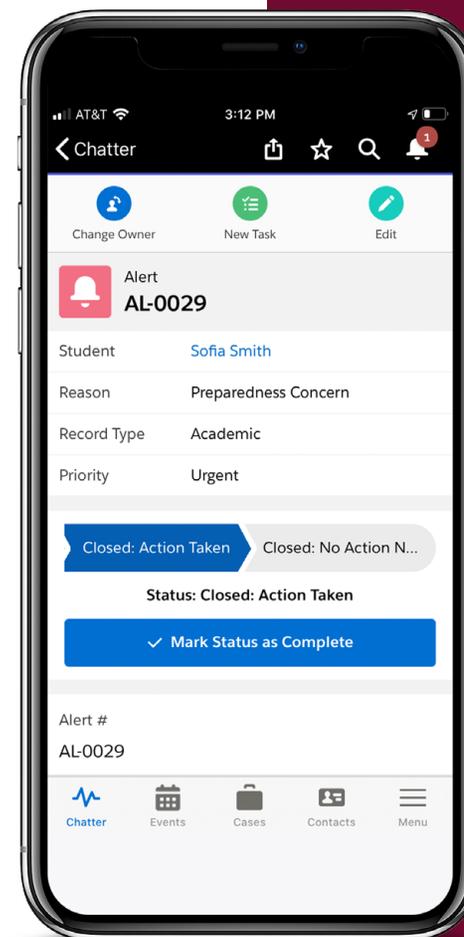

360° STUDENT PROFILES

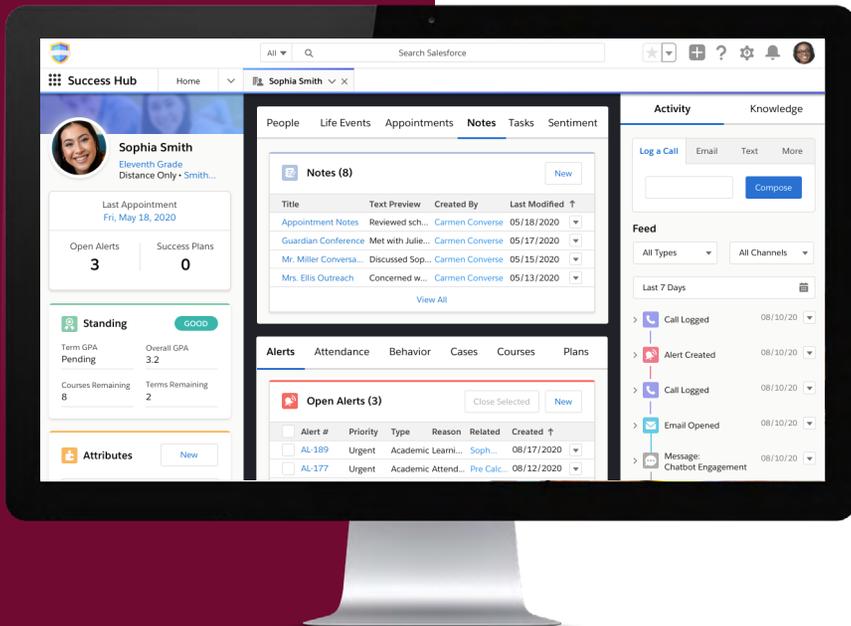

Gain a 360° view of each student—from attendance and grades to behavior, household information, and more—all in one place. Teams can easily collaborate on a unified student record over time, add notes, and track support activities to create more informed interactions with students and provide the right services at the right time.

DATA-INFORMED ALERTS

Bring multiple data points together to determine which students are at risk. Create custom alerts and automatic follow-up tasks using clicks, not code, and receive predictive alerts based on attendance, grades, behavior, and more. Easily go from alert to action to ensure all students are quickly supported.

STUDENT SUCCESS PLANS

Assign student success plans with customizable sets of tasks for common interventions and support scenarios so that staff always have a clear plan of action and are never wondering what's next or who's on point. Build personalized success plans and actively collaborate with students, families, and staff to ensure each child receives support that is unique to their needs.

COLLABORATIVE CASE MANAGEMENT

Enable multi-disciplinary student support staff to collaborate while limiting sensitive information to those who are directly supporting each student. Securely chat, assign tasks, share notes, and refine success plans with key milestones, all from one place.

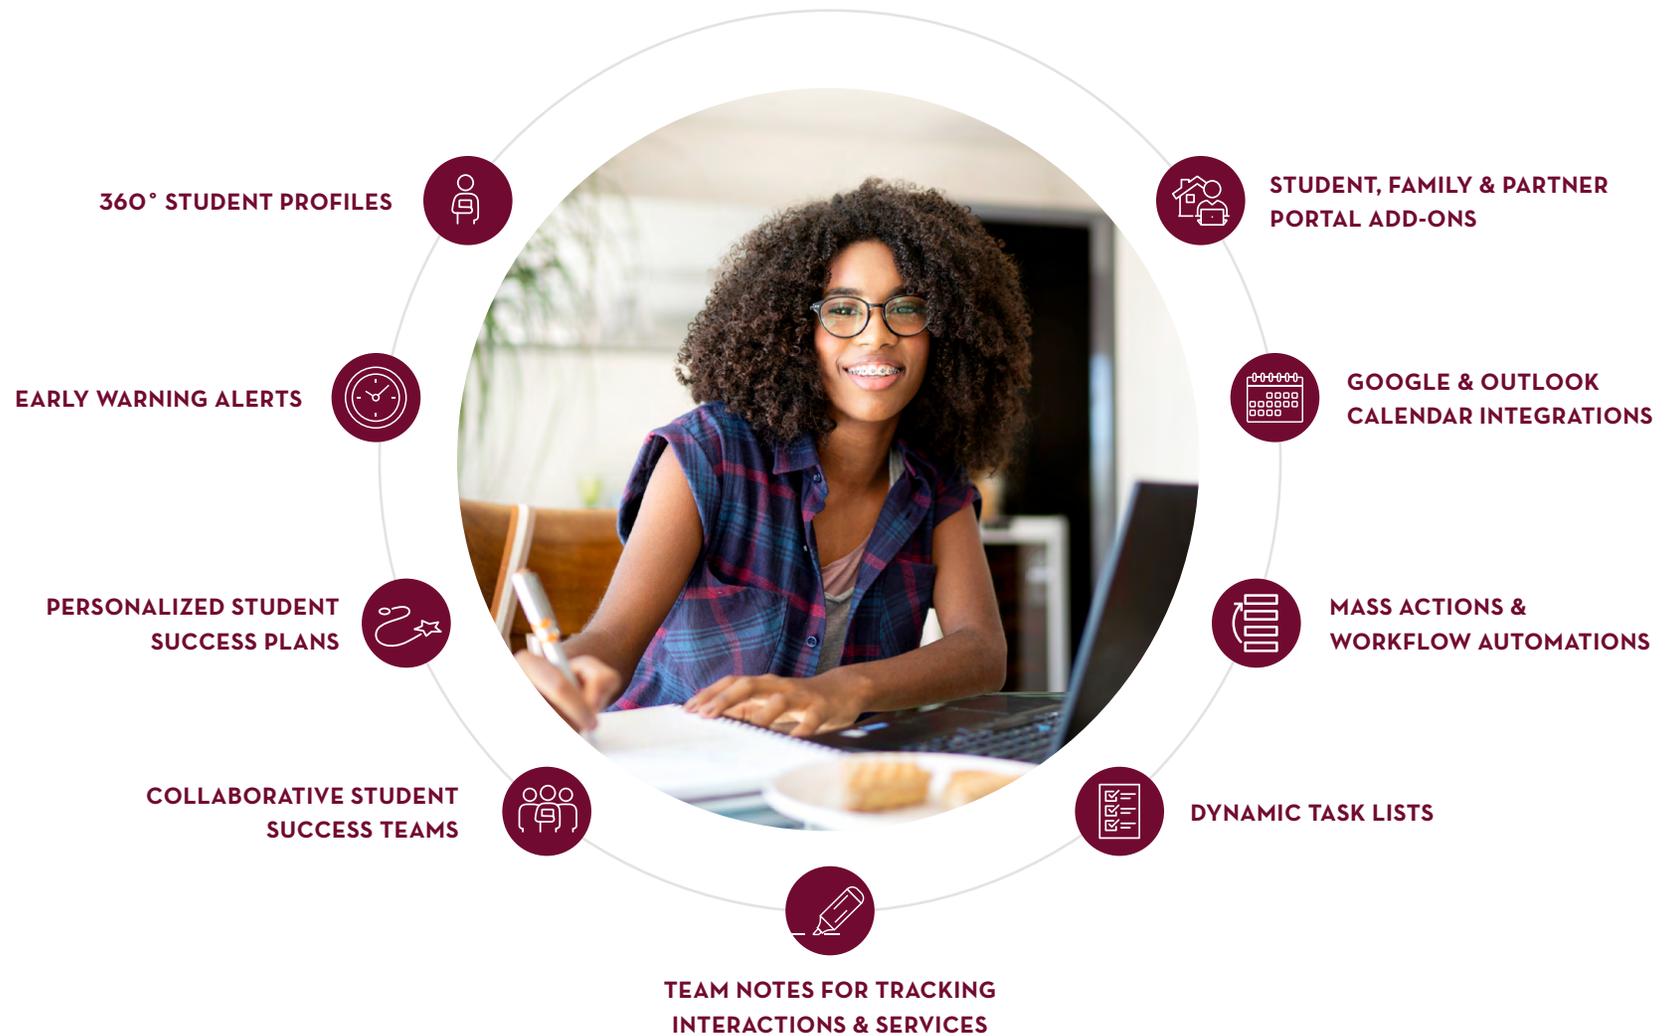

CUSTOMIZABLE REPORTS AND DASHBOARDS

Create customizable reports to track and measure student progress, as well as participation in programs, interventions, and success plans. Monitor the impact of interventions and programs to see what's working and make data-driven decisions. Utilize these insights to drive continuous and evidence-based improvement, ensuring that each student receives equitable and holistic support.
