

SALESFORCE NONPROFIT CLOUD CASE MANAGEMENT

Scale personalized care to clients on a platform that helps service providers track intake, referrals, clients, services, case plans, notes, incidents, and assessments

With Nonprofit Cloud Case Management, you can deliver personalized services to help clients progress towards their goals. By having your programs, services, and clients in a single system, you can ensure no one falls through the cracks and they get the quality of care they deserve.

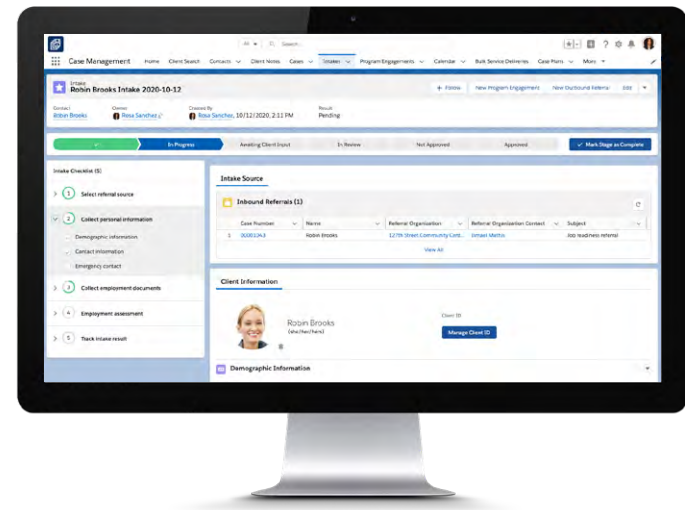

Make sure no client falls through the cracks
with Nonprofit Cloud Case Management.

BUILT ALONGSIDE THE NONPROFIT COMMUNITY

Thanks to our nonprofit community of customers and partners, Case Management was built with input from real users of the product, from case and program managers to Salesforce administrators to consultants who would implement the technology. This helped Salesforce build a solution that mimics how service providers at nonprofits work and to make sure this tool is what you need to drive more impact with your clients.

SCALE YOUR ABILITY TO DELIVER PERSONALIZED CARE AND SERVICES

Intake

RECURRING SERVICES & ATTENDANCE TRACKING

Save time and manual data entry when setting up recurring services for groups or individual participants and tracking attendance. Service schedules allow program staff to setup multiple offerings of the same service (eg. a Monday & Wednesday Group and a Tuesday & Thursday Group).

CASE PLANS

With just a few clicks, you can create a personalized service plan. Select from commonly used goals and action items or create custom ones unique to your clients' needs. Track and understand what progress has been made and what's still outstanding.

ASSESSMENTS

Determine your client's baseline status when they enter your program and visualize how their circumstances change over time by using assessments.

CLIENT INTAKE & REFERRALS

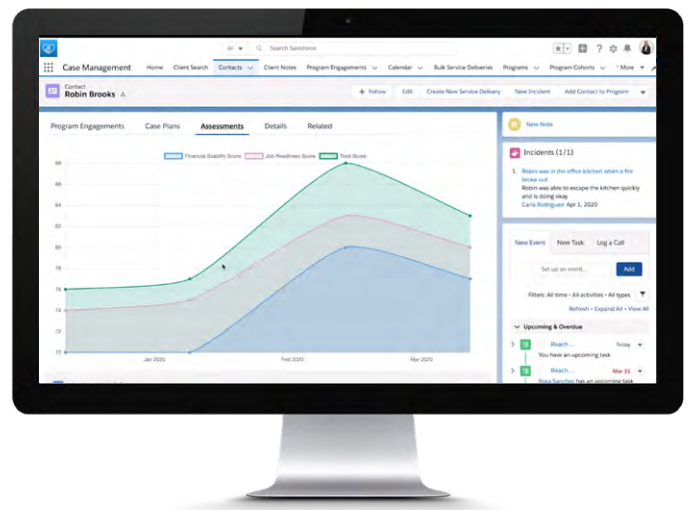

In a time when the demand for services is higher than ever, streamline intake with pre-configured templates that differ by program or easily refer them to another organization.

CASE MANAGER HOME PAGE

Start your day off right by having a single page that shows you upcoming client meetings, tasks, or incidents that are in need of your immediate attention.

CASE NOTES

Create a note from a pre-configured template that differs by program so you no longer have to remember the specific information you have to capture for each note. Save it as a draft to come back to later and tag notes with specific topics so they're easier to find later on.

Assessments
