Nonprofit Cloud
Connect Your Data and Experiences on One Integrated Platform with the Salesforce.org Winter ’22 Release

Experience Cloud for Nonprofits Enhancements

What is Experience Cloud for Nonprofits? Experience Cloud for Nonprofits is a digital front door for your stakeholders to engage with your nonprofit, streamline self-service, and share the story of your mission’s impact.

What’s New? Common components available for faster setup of an Experience Cloud site including My Profile, Communication Preferences, Registered User Matching, and Automated Site Setup.

Fundraising
Create donor-centric experiences

Elevate Power of Us Edition

What’s the Elevate Power of Us Edition? The reimagined Power of Us Program includes a new edition of Elevate, giving customers access to digital fundraising integrated with the Nonprofit Success Pack (NPSP) with no upfront costs and fees based on the amount of funds raised, unless the donor covers them, and new modules in Trailhead and discounted services to help customers quickly get started.
Elevate Paypal Checkout

**What is Elevate?** Elevate is a fully integrated solution for fundraising, consisting of Giving Pages, which are easy to set up, and Payment Services, which includes a multi-gateway solution that connects to the Nonprofit Success Pack (NPSP).

**What’s New?** Increase conversion using digital wallets. PayPal Checkout is now supported in Elevate.

**Client Experience**

**What is Experience Cloud for Nonprofits?** Experience Cloud for Nonprofits is a digital front door for your constituents to engage with your nonprofit, streamline self-service, and share the story of your mission’s impact. Note: You need both Nonprofit Cloud Case Management and Experience Cloud to use this feature.

**What’s New?** Give clients agency in their own success with Client Experience. New components in Experience Cloud give clients access to view case plans, case teams, and status updates, upload documents, and add comments for case managers through a client Community.

**Full Client Note History**

**What is Nonprofit Cloud Case Management?** Nonprofit Cloud Case Management helps organizations scale personalized care to clients on a platform that helps track services, case plans, notes, incidents, assessments and outcomes.

**What’s New?** Case Managers get up to speed on a client faster by viewing and filtering all notes on a single screen without having to click into each individual note. Enables users to see all notes for a specific client in one view, which can be filtered based on their preferences.

**Bulk Service Delivery and Service Schedule Enhancements**

**What is Program Management Module?** Program Management Module provides a standard framework for nonprofits to organize and manage their program data in Salesforce regardless of volume or complexity. (Innovation also available in Nonprofit Cloud Case Management).

**What’s New?** Decrease administrative steps when adding new program engagements and program participants without Program Managers having to leave their current work flow. Allows users to create a new program engagement (and contact if needed) from bulk service deliveries or while adding service participants to a service schedule.
Review Workspace

**What is Grants Management?** Grants Management is a product that helps grantmakers streamline their processes to get critical funding out to their communities quickly.

**What's New?** Simplify and accelerate the application review process for staff by selecting only the sections they need to see and provide feedback. Grants Managers select which records, fields, data and files associated with applications are visible to internal reviewers allowing them to provide feedback used to make decisions on awards.
